### Schedules and Time Availability

The qualification test is scheduled on September 6, 2008. Lectures are scheduled over the next three Tuesday evenings. The required 4 RLC field trips will be scheduled by individual instructors over the next several Saturdays and Sundays, weather permitting. In order to accommodate weather and our volunteer instructor schedules, you will need to be available on weekends during the period of September 13 to October 18 and possibly later, if weather requires. Generally you should expect to have one field trip per weekend unless your group gets seriously behind schedule due to weather.

**Please describe any possible scheduling conflicts with the above plan.**

**Include any anticipated problems with availability on any weekend day:**
